

PROJECT REPORT

Project Title: Taxidermy specimens.

Research Agency: Fresno County Department of Agriculture

Principal Investigator: Rinder

Budget: \$1000.00

Summary/ Abstract of Final Report:

The purpose of this project was to secure taxidermy specimens (giant kangaroo rat, California ground squirrel, eastern fox squirrel, and western gray squirrel) for use in continuing education classes required for professional certification and licensing. The specimens will be used for pest control training and endangered species education. The specimens were collected, prepared, and mounted as per standard taxidermy methods.
